

FastTrack® Adjustable Wire Shelving System

Rubbermaid®

The Rubbermaid® FastTrack system delivers flexible, heavy-duty storage with quick installation and secure-locking brackets for easy customization.

Compatible with all Rubbermaid shelving, FastTrack adjusts easily as storage or ADA needs change—without additional drilling.

1

Install FastTrack Rail at desired height (based on standard measurements from top of rail). Secure with provided #12 x 1-1/2" screws and drywall anchors.

- For studs: use a 1/8" drill bit for pilot holes
- For drywall anchors: use a 1/4" drill bit

2

Hang uprights from the rail, spacing no more than 32" apart. Secure each upright to a stud or wall anchor in two locations with #10 x 2" or #12 x 2 1/2" screws.

3

Insert brackets into uprights at desired height, then lock shelving into place.

RAILS - For use with FastTrack® Uprights.

Name	Item No.
40" FastTrack Rail – White	FG3Q7000WHT
40" FastTrack Rail – Satin Nickel	1834277
